PIEVE SAN QUIRICO CASTLE (11TH-13TH CENTURY) - UMBRIA / ITALY

Royal setting for a "Princess-bride-to-be" destination wedding!

Pieve San Quirico castle (11th-13th century historic house), the main villa - is a stylish medieval castle, surrounded by a courtyard with a spectacular octagonal tower, built by emperor Frederick II of Swabia, beautifully renovated and made into a private house. It has been restored according to the highest standard of renovation and design to create a luxury villa with 7 bedrooms (15 beds) and 9 bathrooms, with breathtaking views around it and in total privacy. For large groups, the nearby uphill Tower Palace villa (11th century historic house - 8 bedrooms Guest House) is available on request (15 extra beds). It can be rented only in addition to the castle. The castle features a beautiful, large, consecrated 18th century Parish Church and it is licensed for on-site legally binding weddings celebrations.
